cubit below Jupiter; last part of the night, lightning flashed continuously in the south
and east. The 10th, in the morning, clouds were in the sky [....]
- 6 [.... Night of the 12th, beginn]ing of the night, the moon was 3 cubits behind α Arietis,
the moon being 5 cubits low to the south; all night very overcast, the south wind bl[ew
....]
- 7 [....] the north wind blew. Night of the 14th, sunset to moonrise: 4° 30'; the north wind
blew; last part of the night, the moon was 1 ½ cubits in front of β Tauri, the moon being
4 cubits [low] to the south [....]
- 8 [.... Night of the 15th, ... bl]ew²; last part of the night, the moon was 1 cubit in front of
η Geminorum, the moon being 1 ½ cubits low to the south. The 15th, clouds were in the
sky [....]
- 9 [.... Night of the 17th, last part of the night, the moon was] 4² ½ cubits [below] β
Geminorum, the moon having passed a little to the east. Night of the 18th, last part of
the night, the moon was 2 cubits in front of δ Cancri, the moon being 1 ½ cubits [low to
the south]
- 10 [.... Night of the 20th, last part of the night, the moon was nn cubits below α Leonis,] the
moon having passed a little to the east. Night of the 21st, last part of the night, the moon
was 2 ½ cubits behind ρ Leonis, the moon being 1 ½ cubits [low] to the sou[th]
- 11 [....] Night of the 23rd, beginning of the night, clouds were in the sky; last part of the
night, the moon was 1 cubit in front of γ Virginis, the moon being 1 ½ cubits low to the
south. <The 23rd,> in the mor[n]ing [....]
- 12 [.... Night of the 24th, last part of the night, the moon was] 1 cubit [in front of α Virgi]nis,
the moon being 8 fingers high to the north. The 24th, in the morning, clouds were in the
sky. The 25th, clouds were in the sky. Night of the 26th, clouds [....] the sky [....]
- 13 [.... clouds] were in the sky. The 27th, moonrise to sunrise: 23° 40'; I did not watch; all
day clouds were in the sky. Night of the 28th, first part of the night, Venus was 2 ½
cubits below β Capricorni [....]
- 14 [....] in the middle of the month, 1 pān 5 sūt 3 qa, at the end of the month, 2 pān; dates,
1 kur 3 pān 4 sūt, at the end of the month, 1 kur 3 pān 3 sūt; mustard, [....]
- 15 [.... which] were given [in] the land. At that time, Jupiter was in Sagittarius; Venus, until
the middle of the month, was in Sagittarius, at the end of the month, in Capricorn; Mercury
was in Libra; around the 18th, Me[r]cury's last appearance in the east in Scorpius [....]
- 16 [.... the co]met which previously had been seen in the east in the path of Anu in the area
of Pleiades and Taurus, to the west [....]
- 17 [....] and passed along in the path of Ea. That month, the 5th, 6th, and 7th, the
sacrifices which are made² to Bel, Beltija and Ištar [....]

- 18 [Month IX, the 1st (of which followed the 30th of the preceding month), sunset to moonset: nn° , measur]ed; (the moon) could be seen while (the sun) stood there, it was high to the sun; the moon was $1 \frac{1}{2}$ cubits above Jupiter, the moon having passed a little to the east; all night clouds were in the sky, the south wind blew [....]
- 19 [.... clouds] were in the sky, the south wind blew. Night of the 3rd, the moon was 2 cubits in front of γ Capricorni, the moon being $2 \frac{1}{2}$ cubits high to the north; lightning fl[ashed, ...]
- 20 [....] the south wind blew. The 4th, clouds were in the sky, the south wind blew. Night of the 5th, the north and east winds <blew>; very overcast. The 5th, very overcast, the south wind blew. Night [of the 6th, ...]
- 21 [.... Night] of the 7th, beginning of the night, clouds were in the sky, the south wind blew. The 7th, the south wind blew. Night of the 8th, beginning of the night, the moon was [....] below η Piscium [....]
- 22 [.... Night of the 9th, beginning of the night, the moon was nn cu]bits [behind α Arietis,] the moon being 5 cubits low to the south; all night clouds were in the sky. The 9th, clouds were in the sky, the south wind blew. Night of the 10th, beg[inning of the night, ...]
- 23 [.... Night of the 11th, beginning of the night, the moon was] 1 cubit [....] α Tauri, the moon being 1 cubit high to the north; clouds were in the sky. The 11th, clouds were in the sky, the south wind blew; [....]
- 24 [.... Night of the 12th, ...] Venus was 2 fingers above γ Capricorni; last part of the night, overcast, the south and east winds blew; last part of the night, Mars was [....] above α Vir[ginis]
- 25 [.... Night of the 13th, moonrise to sunset: nn° ;] I did not watch; the south and east winds blew; all night very overcast, a little rain shower. The 13th, sunrise to moonset: $2^{\circ} 30'$; clouds, I did not watch; very overcast, the sou[th wind blew]
- 26 [.... Night of the 14th, ... the sou]th and east winds blew. During the morning watch, the moon was surrounded by a halo, it billowed very much; last part of the night, the moon was [....] below α Geminorum [....]
- 27 [....] blew. Night of the 16th, clouds were in the sky, the south wind blew; during the morning watch, very overcast; lightning flashed continuously, thunder, rain [....]
- 28 [....] Night of the 17th, the north wind blew; last part of the night, the moon was $1 \frac{1}{2}$ cubits in front of α Leonis, the moon being 2 cubits low to the south. The 17th, the north wind blew [....]
- 29 [....] The 18th, clouds were in the sky; the sun was surrounded by a halo; in the afternoon, overcast. Night of the 19th, beginning of the night, clouds crossed the sky [....]
- 30 [.... Night of the 20]th, all night very overcast; last part of the night, clouds crossed the sky. The 20th, very overcast Night of the 21st, ... [....]
- 31 [.... Night of the 26th, last part of the night, the moon was] 1 cubit 4 fingers [above θ] Ophiuchi [....]
